Adjustable Glass Shelves
Adjustable glass shelves provide the flexibility you need to display pieces of various shapes and sizes.

Plate Grooves
To prevent special items from slipping, plate grooves have been added to each shelf, in most models.

Finished Edges
Additionally, shelf edges are polished for a refined detail.

Color Matching Splines
Cushion glass around the edges, stabilizing the glass to prevent rattling or possible breakage.

2-Way Sliding Door
Many of our display cabinets feature two-way sliding doors which allow you to arrange your special treasures with ease, and is lockable for added security.
Felt Strips
Significantly reduce dust inside your display cabinet.

Adjustable Floor Levelers
To establish a solid foundation, adjustable levelers are provided on most models. These allow you to stabilize your display cabinet on uneven surfaces.

Interior Lighting
Most models offer interior lighting with adjustable levels, allowing you to choose a setting that best highlights your items.

Triple Reinforced Joints
Provide unequalled stability and longevity.
